Self

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Self-Awareness	X
<p>1.1 Compare their characteristics with those of others and display a growing awareness of their psychological characteristics, such as thoughts and feelings.</p> <ul style="list-style-type: none"> • Children are confident in their abilities and characteristics, sometimes (depending on cultural values) comparing them favorably with those of others. Children also regard themselves in terms of their past abilities and remain sensitive to how they are viewed by adults, peers, and other people whose opinions matter to them. <ul style="list-style-type: none"> • Communicates, “I can ride a bike, but my baby sister doesn’t.” • Smiles with delight at accomplishing something that was difficult to do and looks to the teacher for acknowledgment. • Communicates, “I couldn’t do that when I was little.” • Communicates, “Sometimes I just want to be by myself.” • Seems disappointed if a drawing or demonstration of physical skill does not elicit the expected acknowledgement from an adult. • Tries new things, even those that may be too difficult. • While using her wheelchair, communicates, “I can go faster than you!” • Asks for help after several attempts to solve a problem. • Communicates, “I can speak Spanish and English.” • Watches a peer demonstrate a skill, then tries to do the same thing. 	All Activities
2 – Self-Regulation	-
<p>2.1 – Regulate their attention, thoughts, feelings, and impulses more consistently, although adult guidance is sometimes necessary.</p> <ul style="list-style-type: none"> • Children anticipate routines, cooperate with fewer reminders, can focus attention on the task at hand, and manage transitions. They are more capable of emotional and behavioral self regulation but sometimes require adult guidance. 	All Activities

Self

California Early Learning Standard	TeachSmart® Learning System Activities
<ul style="list-style-type: none"> • May anticipate cleanup after play time and begin cleaning up without being prompted to do so. • Puts away books where they belong without being prompted by an adult. • Is more capable of focusing attention on a task in a busy classroom and is less distractible than a three-year-old. • Spontaneously tells the teacher she has broken something. • Tells another child about how to treat the classroom pet. • Suggests that he can share the blocks with another child. • With a teacher’s prompt, remembers to use words to convey strong feelings (e.g., “It makes me mad when you push!”). • Tries to control her distress after falling off a tricycle. • Asks for a teacher’s help when another child will not share. • Can be overheard saying when scared by a story, “It’s just pretend” or “That’s not real, right?” • Has strategies for waiting (such as distracting herself or not looking at the desired object). • Deliberately slows down her movements in a game such as “Red Light – Green Light.” • Explains the reasons for a behavioral rule (e.g., “We walk inside so we don’t bump into other people”). 	<p>All Activities</p>
3 – Social and Emotional Understanding	-
<p>3.1 Begin to comprehend the mental and psychological reasons people act as they do and how they continue to differences between people.</p> <ul style="list-style-type: none"> • Children have a better understanding of people’s thoughts and feelings as well as their own. They comprehend that another’s ideas can be mistaken. They are also beginning to understand differences in personality, temperament, and background (e.g., culture) and their importance. <ul style="list-style-type: none"> • Tells a teacher, “Jorge was sad because he thought his mommy wasn’t coming.”

Self

California Early Learning Standard	TeachSmart® Learning System Activities
<ul style="list-style-type: none"> • Tries to hide how she is feeling or to “mask” her feelings with a different emotional expression (e.g., appearing calm and unafraid when encountering a big dog). • Communicates about a peer, “Emma’s really shy.” • Has a growing vocabulary for identifying emotions and can describe more complex emotional situations that might evoke different feelings. • Explores more complex feelings, desires, and concepts in pretend play. • Deliberately does not communicate truthfully about inappropriate behavior. • Describes which peers are friendly, aggressive, or have other qualities. • Tends to play in same-sex groups. • Notices a child with a physical disability and responds with questions or curiosity. 	
4 – Empathy and Caring	-
<p>4.1 Respond to another’s distress and needs with sympathetic caring and are more likely to assist.</p> <ul style="list-style-type: none"> • Children respond sympathetically to a distressed person and are more competent at responding helpfully. <ul style="list-style-type: none"> • Asks a younger child, “Why are you crying?” and when told that she misses her mommy, communicates, “Don’t worry—your mommy will come back soon.” • May communicate, “That’s not fair!” in response to another child being excluded from the group. • Helps a friend rebuild a fallen block tower. • Offers a friend her favorite book when she looks or acts sad. • May come to the defense of a friend who is teased by a peer. • Asks a teacher for bandages after a peer has fallen and scraped his knee. • Asks, “Want some water?” of a friend who is coughing.

Self

California Early Learning Standard	TeachSmart® Learning System Activities
5 – Initiative in Learning	-
<p>5.1 Take greater initiative in making new discoveries, identifying new solutions, and persisting in trying to figure things out.</p> <ul style="list-style-type: none"> Children are selfconfident learners who become actively involved in formal and informal learning opportunities by asking questions, proposing new ways of doing things, and offering their own ideas and theories. <ul style="list-style-type: none"> Communicates, “Here’s a different way!” Asks “why” questions fairly often out of real curiosity (e.g., “Why is the worm doing that?”). Suggests another way of creating a castle at the sand table. Wants to try again when failing in his initial efforts to solve a problem. Offers information about animals that she has learned at home. Initiates a conversation with an adult about a class activity. Works hard on a project that has captured her interest. Communicates, “I’m going to play with blocks and then go to the science table.” 	All Activities

Social Interaction

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Interactions with Familiar Adults	-
<p>1.1 Participate in longer and more reciprocal interactions with familiar adults and take greater initiative in social interaction.</p> <ul style="list-style-type: none"> Children take increasing initiative in interacting with familiar adults through conversation, suggesting a shared activity or asking for the adult’s assistance, and cooperate readily. <ul style="list-style-type: none"> Asks a specific teacher to help build a road in the sandbox and interacts cooperatively with the teacher for a sustained period. Communicates to a weekly volunteer, “Guess what I did!” and continues conversing with the visitor about it. 	All Activities

***** Note:** Correlation based on Volume I of the Foundations only. Correlations for other domains will be completed upon the release of Volume II ***

Social Interaction

California Early Learning Standard	TeachSmart® Learning System Activities
<ul style="list-style-type: none"> Answers a teacher’s question, then asks the teacher another question. Communicates, “What?” or “Huh?” when the teacher asks a question that the child does not understand. 	All Activities
2 – Interactions with Peers	-
<p>2.1 More actively and intentionally cooperate with each other.</p> <ul style="list-style-type: none"> Children initiate and participate in more complex, cooperative activity with peers. This may involve working together in groups to achieve a shared goal or communicating about how to share materials so all can use them. <ul style="list-style-type: none"> Invites several children to help dig a hole in the sandbox. Suggests taking turns riding the tricycle. Responds appropriately to another child’s ideas about how to build a better car track on the floor. Shares play dough so another child can make something. Talks for several minutes with another child about how they are dressing up in adult clothes for pretend play. Joins several other children to create a train track, using blocks on the floor. Holds the bubble wand for another child so she can blow bubbles. Sets the table with another child, communicating about what is needed next. 	All Activities
<p>2.2 Create more complex sequences of pretend play that involve planning, coordination of rules, and cooperation.</p> <ul style="list-style-type: none"> Children develop longer, more complex pretend play narratives involving a shared script, coordination of child selected roles, and mutual correction within those roles as they play. <ul style="list-style-type: none"> Creates with a small group of children an extended imaginary story with a beginning, a middle, and an end (e.g., a story of sickness and healing that involves a doctor’s visit, a trip to the hospital, an operation, and the patient’s recovery). Communicates to another child, “You can’t say that! You’re the baby, remember?” 	I Can Pretend, I Can Tell a Story

***** Note:** Correlation based on Volume I of the Foundations only. Correlations for other domains will be completed upon the release of Volume II ***

Social Interaction

California Early Learning Standard	TeachSmart® Learning System Activities
<ul style="list-style-type: none"> While playing with other children, communicates, “I’m sick,” to which another child responds, “Really?” and he responds, “No, just pretend.” Communicates to another child, “Let’s say this is a secret cave, OK?” and the other children in the group respond, “OK!” 	<p>I Can Pretend, I Can Tell a Story</p>
<p>2.3 Negotiate with each other, seeking adult assistance when needed, and increasingly use words to respond to conflict. Disagreements may be expressed with verbal taunting in addition to physical aggression.</p> <ul style="list-style-type: none"> Children can suggest simple conflict resolution strategies as well as respond to adult suggestions for resolving peer disputes. Children may taunt or tease another child rather than hitting and may also retaliate when provoked. <ul style="list-style-type: none"> Communicates at the water table where other children are playing, “When can it be my turn?” Excludes another child from the group, communicating, “You can’t play with us.” Communicates to another child in the block area, “I’m playing with these; you play with those,” or suggests taking turns. Communicates, “I don’t like it when you push me!” without a prompt from the teacher. Pushes another child who shoved her in line, to which other children respond, “Stop that!” 	<p>All Activities</p>
<p>3 – Group Participation</p>	<p>-</p>
<p>3.1 Participate positively and cooperatively as group members.</p> <ul style="list-style-type: none"> Children participate in group activities with the ability to anticipate familiar routines and contribute to shared projects more competently as group members. <ul style="list-style-type: none"> Anticipates the predictable routines of the day, such as initiating hand washing without being prompted when snack time arrives. Actively explores social roles in imaginative play. Is more capable of sustained attention and remaining engaged in group activities, such as putting a puzzle together cooperatively. 	<p>All Activities</p>

*** **Note:** Correlation based on Volume I of the Foundations only. Correlations for other domains will be completed upon the release of Volume II ***

Social Interaction

California Early Learning Standard	TeachSmart® Learning System Activities
<ul style="list-style-type: none"> • Applies game rules more consistently for simple games. • Knows the procedure for leaving the setting to go to the bathroom or to another room and corrects children who do not follow the procedure. • Anticipates and begins preparing for an activity, such as a painting project. • Sometimes shares spontaneously and thinks of turntaking without adult prompting. 	All Activities
4 – Cooperation and Responsibility	-
<p>4.1 Have growing capacities for self-control and are motivated to cooperate in order to receive adult approval and think approvingly of themselves.</p> <ul style="list-style-type: none"> • Children’s cooperation with adult instructions is more reliable because of better capacities for selfcontrol. Children are motivated by adult approval and by a desire to view themselves approvingly for their good conduct, reflecting their acceptance of adult standards for themselves. <ul style="list-style-type: none"> • Tells another child to be gentle with the classroom guinea pig. • Suggests taking turns with another child who wants to ride the tricycle. • Spontaneously communicates, “I’m a good helper!” • Accidentally spills paint on another child’s artwork, then communicates, “I’m sorry,” or gets another piece of paper for the other child. • Communicates, “uhoh,” and begins to pick up the pieces of a puzzle she has knocked off a shelf. • Works cooperatively with a friend to wipe off the table with sponges after lunch. • Responds cooperatively when his behavior is corrected by a teacher. *** **Note:** Correlation based on Volume I of the Foundations only. Correlations for other domains will be completed upon the release of Volume II ***

Relationships

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Attachments to Parents	-
<p>1.1 Take greater initiative in seeking support from their primary family attachment figures.</p> <ul style="list-style-type: none"> Children seek the support of their family caregivers, especially in difficult situations, by requesting help in resolving conflicts with others, initiating cooperative problem solving, or seeking comfort when distressed. <ul style="list-style-type: none"> Seeks the parent’s help in a conflict with a sibling. With assistance from the parent, describes her feelings about a recent upsetting experience. Seeks the parent’s help with a difficult task (e.g., zipping a coat, folding a note) and cooperates readily. 	
<p>1.2 Contribute to positive mutual cooperation with their primary family attachment figures.</p> <ul style="list-style-type: none"> Children demonstrate an awareness of the mutuality of close relationships in their efforts to be helpful, showing interest in the family caregiver’s feelings, preferences, or wellbeing and sharing activities. <ul style="list-style-type: none"> Wants to make a birthday card for the parent while at school. Wants to help the parent care for a baby sibling or a pet or work together with the parent on a task at home (as reported by the parent). Communicates feelings to the mother, sometimes taking the initiative in doing so. Reports to the teacher about helping with a chore at home. Shows the attachment figure what she has been working on at school. 	
<p>1.3 After experience with out-of-home care, comfortably depart from primary family attachment figures. Also maintain well-being while apart from primary family attachment figures during the day.</p> <ul style="list-style-type: none"> Children are eager to begin the day in preschool. They respond affectionately to the family caregiver as the adult departs and have little difficulty being separated. <ul style="list-style-type: none"> Runs into the preschool at arrival to greet friends, then runs back to the mother for a hug and kiss as she departs.

*** **Note:** Correlation based on Volume I of the Foundations only. Correlations for other domains will be completed upon the release of Volume II ***

Listening and Speaking

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Language Use and Conventions – Children extend their understanding and usage of language to communicate with others effectively.	X
1.1 Use language to communicate with others in both familiar and unfamiliar social situations for a variety of basic and advance purposes, including reasoning, predicting, problem solving, and seeking new information. <ul style="list-style-type: none"> • Reasoning – The child says, “I think we can go outside because it’s sunny now” or “I don’t need my coat because it’s not windy.” • Predicting – The child says, “I think that bear’s going to get lost!” or “If it keeps raining I think the worms will come out.” • Problem solving – The child says, “Maybe we can put the milk in here and then it will be cookie dough.” • Seeking new information – The child says, “Why isn’t Jerome at school?” or “Why are you dressed up? Where are you going?” 	All activities provide these opportunities
1.2 Speak clearly enough to be understood by both familiar and unfamiliar adults and children. <ul style="list-style-type: none"> • The child generally speaks with correct pronunciation, although some continuing speech errors are age-appropriate. • Most of the child’s speech is free of speech errors. Most listeners do not have to ask the child to repeat himself or herself by asking, “What did you say?” 	I Can Tell a Story, I Can Pretend, Guess A Picture & Talk About It
1.3 Use accepted language and style during communication with both familiar and unfamiliar adults and children. <ul style="list-style-type: none"> • The child responds on topic across several turns in conversation. For example, during dramatic play, the child says, “I’m the baby and I’m hungry.” A friend responds, “Okay, I’ll cook you breakfast.” The child responds, “Then you’re the mommy and you’re cooking the breakfast.” A friend responds, “I’m going to make pancakes.” • The child adjusts the form and style of language use according to the listener’s status, competence, or knowledge. For example, during a field trip to the fire station, tells a firefighter, “Wow! That’s neat. Can I hold it?” but tells a peer, “I want to see!” While talking with older brother, prefaces the description of the fire truck and equipment by stating that the class went on a field trip to the fire station that day. 	Guess the Picture & Talk About It, I Can Tell a Story, I Can Pretend

*** **Note:** Correlation based on Volume I of the Foundations only. Correlations for other domains will be completed upon the release of Volume II ***

Listening and Speaking

California Early Learning Standard	TeachSmart® Learning System Activities
<ul style="list-style-type: none"> The child consistently uses appropriate nonverbal standards in conversation with others (e.g., eye contact, distance to conversational partner, facial expressions). The child typically uses polite forms of communication as appropriate (e.g., says thank you, please, addresses adults as Mr., Mrs., or Ms.). The child typically uses volume and intonation appropriate for a situation when speaking. For example, uses a quieter voice inside the classroom than on the playground. 	<p>Guess the Picture & Talk About It, I Can Tell a Story, I Can Pretend</p>
<p>1.4 Use language to construct extended narratives that are real or fictional.</p> <ul style="list-style-type: none"> The child tells a brief story that unfolds over time: “I went to the park with my mommy, and we played in the sandbox. Then we had a picnic. After that, we went to the store.” The child tells about activities of interest to him or her that day: “First we come to school and sit on the carpet. Then we have our circle time. And then we do the centers. And then it’s time for lunch.” The child retells the major events of a favorite story: “The boy wrote to the zoo, and they kept sending him animals. But he doesn’t like them. So, then he gets a puppy, and he keeps it. He was happy then.” 	<p>Guess the Picture & Talk About It, I Can Pretend, I Can Tell A Story</p>
<p>2 – Vocabulary – Children develop age-appropriate vocabulary</p>	<p>X</p>
<p>2.1 Understand and use an increasing variety and specificity of accepted words for objects, actions, and attributes encountered in both real and symbolic contexts.</p> <ul style="list-style-type: none"> Nouns/Objects - The child hands a friend the <i>fire truck</i>, the <i>dump truck</i>, and the <i>semitruck</i> when the friend says, “I want to play with the fire truck, dump truck, and semi” during play. <ul style="list-style-type: none"> While reading a book about dinosaurs, the child answers, “That’s a <i>Apatosaurus</i> and that’s a <i>Tyrannosaurus</i>,” when the teacher asks, “What are these?” Verbs/Actions - When the child is playing with tools in the dramatic play area, the child responds, “the stove,” when a friend asks, “What needs to be <i>repaired</i>?” <ul style="list-style-type: none"> The child says to a parent volunteer, “I have a story. Can you <i>type</i> it on the computer for me?” 	<p>Compare/Contrast, Guess the Picture & Talk About It, I Can Concentrate</p>

Listening and Speaking

California Early Learning Standard	TeachSmart® Learning System Activities
<ul style="list-style-type: none"> Attributes - During a cooking project, the child gives the teacher the plastic fork when the teacher says, "Hand me the <i>plastic</i> one." During dramatic play, the child says to a friend, "Look at my necklace. It's <i>shiny</i>." 	<p>Compare/Contrast, Guess the Picture & Talk About It, I Can Concentrate</p>
<p>2.2 Understand and use accepted words for categories of objects encountered in everyday life.</p> <ul style="list-style-type: none"> After reading a book about reptiles, the child points to pictures of a snake, a lizard, and a turtle when the teacher asks the children to find the pictures of reptiles. When the children and teacher are making a pretend city, the teacher says, "Now, we need some vehicles, "and Sammy brings a car, a truck, a tractor, and a motorcycle. During play the child puts the apple, banana, and pear into one bowl and puts the broccoli, carrots, and corn into another bowl and says to a friend, "These are the fruits and these are the vegetables." During play Anne tells Cathy, "You go get the furniture for the house. We need a chair, a table, a sofa, a desk, and a dresser." 	<p>Where do People Live, I Can Concentrate, Compare/Contrast, I Can Sort, I Can See Shapes, Daily Questions</p>
<p>2.3 Understands and use both simple and complex words that describe the relations between objects.</p> <ul style="list-style-type: none"> After reading a story about the zoo, the teacher asks, "What animals are <i>smaller</i> than an elephant?" The child correctly identifies a lion, a tiger, a bear, and a zebra. During circle time the teacher invites Stephen to sit <i>next</i> to Mark, and he does. While playing in the block center, DeAndre tells Susan, "Put the red block in <i>front</i> of the tower." During snack time the child complains, "Your quesadilla is <i>bigger</i> than mine!" 	<p>I Know My Place Words, Who's First, Who's Last, Which is Tallest, Shortest, & Longest</p>
<p>3 – Grammar – Children develop age-appropriate grammar.</p>	<p>X</p>
<p>3.1 Understands and use increasingly complex and longer sentences including sentences that combine two to three phrases or three to four concepts to communicate ideas.</p> <ul style="list-style-type: none"> The child responds with appropriate action to a statement or a request that includes multiple clauses, such as "find the girl who is sad" or "pick up the dog that fell over." 	<p>I Can Tell a Story, I Can Pretend, Guess the Picture & Talk About It</p>

*** **Note:** Correlation based on Volume I of the Foundations only. Correlations for other domains will be completed upon the release of Volume II ***

Listening

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Children listen with understanding. – Focus: Beginning words	X
<p>1.1 Demonstrate an understanding of a larger set of words in English (for objects and actions, personal pronouns, and possessives) in both real and pretend activity.</p> <ul style="list-style-type: none"> In response to the teacher holding up a jacket and asking the child, “Does this belong to you? Or is it Lai’s jacket?” as the children are getting ready to go outside, takes the jacket and gives it to his friend. 	I Can Tell A Story, I Can Pretend, Guess the Picture and Talk About It
<ul style="list-style-type: none"> While playing with a dollhouse and props with an English-speaking peer, puts the pants on the doll when the peer says, “Put the pants on the doll.” In response to the teacher asking an open-ended question while holding up a photograph (e.g., “What could you do at this park?”), runs in place or hops. Responds by patting his chest and smiling when the teacher asks, “Whose hat is this?” (communicates possession) During small group outdoor play, responds to the teacher’s input (“Throw the ball,” “Kick the ball,” “Catch the ball”) with appropriate actions. 	I Can Tell A Story, I Can Pretend, Guess the Picture and Talk About It
<p>1.2 Follow directions that involve a one-or two-step sequence, relying less on contextual cues.</p> <ul style="list-style-type: none"> Chooses a book and brings it to the teacher when the teacher says, “Go get a book and bring it to me. I’ll read it with you.” “Pours” something into a pot and stirs the “soup” in response to another child who says, “Put some milk in the soup. And stir, stir, stir,” while in the kitchen area. Takes off her coat and places it in her cubby after the teacher says, “It’s hot in here. Why don’t you take off your coat and put it in your cubby?” 	All Activities Promote this Foundation
<p>1.3 Demonstrate an understanding of words in English related to more advanced concepts.</p> <ul style="list-style-type: none"> After looking for his favorite toy lion in the zoo animal basket and not finding it, responds to the teacher’s suggestion, “It’s not on top. Look under the other animals,” by reaching down deeper in the basket, finding the toy, and smiling. Responds appropriately to the directions, “First, wash your hands and then come to the table,” at snack time. Brings the teacher the book from the previous day’s “read- aloud” in response to the teacher’s question, “Lai-Wan, can you bring me the book we read yesterday about fish?” 	I Can Tell A Story, I Can Pretend, Guess a Picture and Talk About It, Where Do People Live?

<p>1.3 Write their first name on their own in English nearly correctly, using letters of the English alphabet to accurately represent pronunciation in their home language.</p> <ul style="list-style-type: none"> Writes his name in English on a painting, with some errors. While outside, writes his name in English and then in Japanese next to a self-portrait, with some errors, using sidewalk chalk. Traces her name in English while drawing with crayons, then writes her name on her own. 	<p>It is Fun to Write My Name, I Can Unpuzzle My Name</p>

Mathematics: Number Sense

California Early Learning Standard	TeachSmart® Learning System Activities
<p>1 – Children expand their understanding of numbers and quantities in their everyday environment.</p>	X
<p>1.1 Recite numbers in order to twenty with increasing accuracy.</p> <ul style="list-style-type: none"> Recites one to twenty incompletely or with errors (e.g., “one, two, three, four, five, . . . nine, ten, eleven, twelve, thirteen, fifteen , seventeen, eighteen, twenty”). Chants one to twenty in order while swinging. Recites one to twenty to show her friend how high she can count. 	<p>I Can Count When I Move Objects, I Can Listen and Count, I Like to Count</p>
<p>1.2 Recognize and know the name of some written numerals.</p> <ul style="list-style-type: none"> Names some numerals found in books or during a game. Points to numerals in a number puzzle as the teacher names them. 	<p>Assessment (numerals), What is a Numeral? What is an Object? How are We Alike?</p>
<p>1.3 Identify, without counting, the number of objects in a collection of up to four objects (i.e., subitize).</p> <ul style="list-style-type: none"> Perceives directly (visually, tactilely, or auditorily) the number of objects in a small group without needing to count them. Looks briefly at a picture of four frogs and immediately communicates the quantity four. During storytime, puts her hand on the picture of four ladybugs and communicates, “Four ladybugs.” Correctly points out, “That’s three cars there.” 	<p>I Know What a Number Stands For? I Can See How Many Are in a Set?</p>

Mathematics: Number Sense

California Early Learning Standard	TeachSmart® Learning System Activities
<p>1.4 Count up to ten objects, using one-to-one correspondence (one object for each number word with increasing accuracy).</p> <ul style="list-style-type: none"> Indicates or points to a flower in the garden and communicates, “one,” then points to another flower and communicates, “two.” The child counts up to seven different flowers. Counts ten children by identifying them one by one during circle time. Counts the blocks in a pile, keeping track of which blocks have already been counted. Counts out eight napkins in preparation for snack time. 	I Can Count When I Move Objects
<p>1.5 Understand, when counting, that the number name of the last object counted represents the total number of objects in the group (i.e., cardinality).</p> <ul style="list-style-type: none"> After giving away some bears, counts the remaining bears to find out how many are left and communicates, “I now have six bears.” Lines up cars on a track and counts, then communicates, “My train has seven cars!” Counts dolls, “one, two, three, four” and communicates, “There are four dolls.” Counts her sticks and communicates, “I have five,” when the teacher asks during an activity, “Does everyone have five sticks?” Counts five apple slices and recognizes there is one slice of apple for each of the five children around the table. 	Who’s First? Who’s Last?, I Can Play the Train Game, I Know My Place Words
<p>2 – Children expand their understanding of number relationships and operations in their everyday environment.</p>	X
<p>2.1 Compare by counting or matching two groups of up to five objects and communicating, “more,” “same as,” or “fewer” (or “less”).</p> <ul style="list-style-type: none"> Counts the number of rocks he has and the number a friend has and communicates, “Five and five, you have the same as me.” Compares a group of four bears to a group of five bears and communicates, “This one has less.” Counts her own sand toys, then counts a friend’s and communicates, “You have more.” 	Daily Questions

Mathematics: Number Sense

California Early Learning Standard	TeachSmart® Learning System Activities
<p>2.2 Understand that adding one or taking away one changes the number in a small group of objects by exactly one.</p> <ul style="list-style-type: none"> • Adds another car to a pile of five to have six, just like his friend. • Removes one animal from a collection of eight animals and communicates, “She has seven now.” • Correctly predicts that if one more car is added to a group of four cars, there will be five. 	I Know How to Add, I Can Subtract
<p>2.3 Understand that putting two groups of objects together will make a bigger group and that a group of objects can be taken apart into smaller groups.</p> <ul style="list-style-type: none"> • Refers to a collection of six balloons and communicates, “Three red balloons for me and three green ones for you.” • Indicates seven by holding up five fingers on one hand and two fingers on another. • Removes three (of five) ducks from the flannel board, communicating, “Three left, and only two stay” when acting a story. 	I Can Subtract, I Know How to Add, I Can Solve a Math Story
<p>2.4 Solve simple addition and subtraction problems with a small number of objects (sums up to 10), usually by counting.</p> <ul style="list-style-type: none"> • During a small group activity, count oranges on the flannel board and communicate, “There are six oranges.” The teacher puts one more orange on the board and asks, “How many oranges do we have now?” Some say seven; others first count, “One, two three, four, five, six, seven” and then say seven. 	I Can Solve a Math Story
<ul style="list-style-type: none"> • Adds two more cups to a group of two, says that there are four cups. • Takes two boats away from a group of five boats and communicates, “One, two, three—three boats left” while playing with friends. • Watches a friend connect a train with three cars to a second train with three cars. Counts the cars and communicates, “Now our train has six cars.” • Builds a stack of five blocks and adds two more saying, “One, two, three, four, five, six, seven. I have seven blocks now.” 	I Can Solve a Math Story

Algebra and Functions (Classification and Patterning)

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Children expand their understanding of sorting and classifying objects in their everyday environment.	X
<p>1.1 Sort and classify objects by one or more attributes, into two or more groups, with increasing accuracy (e.g., may sort first by one attribute and then by another attribute.)</p> <ul style="list-style-type: none"> • Sorts the large blue beads into one container and the small red beads in another. • Puts black beans, red kidney beans, and pinto beans into separate bowls during a cooking activity. • Arranges blocks on the shelf according to shape. • Sorts a variety of animal photographs into two groups: those that fly and those that swim. • Sorts buttons first by size and then each subgroup by color into muffin tin cups. 	<p>I Can Sort Compare/Contract (Sorting)</p>
2 – Children expand their understanding of simple, repeating patterns.	X
<p>2.1 Recognize and duplicate simple repeating patterns.</p> <ul style="list-style-type: none"> • Fills in an item missing from a pattern (e.g., apple, pear, apple, pear), with guidance. • Copies simple repeating patterns, using the same kind of objects as the original pattern. • Attempts to sing, sign, move, or clap through a pattern song, trying to maintain the pattern. 	<p>I Can Make Patterns</p>
<p>2.2 Begin to extend and create simple repeating patterns.</p> <ul style="list-style-type: none"> • Adds a red bead and then a blue bead in a red-blue-red-blue pattern to complete a bead necklace. • Alternates short and tall blocks to make a fence around a farm. • Makes up a clapping or action pattern, “clap, clap, hop, hop” in rhythm to a song. • Uses different materials such as buttons, beads, or sequins to create patterns. 	<p>I Can Make Patterns</p>

Measurement

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Children expand their understanding of comparing, ordering, and measuring objects.	X
1.1 Compare two objects by length, weight, or capacity directly (e.g., putting objects side by side) or indirectly (e.g., using a third object). <ul style="list-style-type: none"> • Tries to determine if he is taller than another child by standing next to the child. • Uses a balance scale to find out which of two rocks is heavier. • Pours water into different size containers at the water table to find out which one holds more. 	Which is Tallest, Shortest, and Longest?
<ul style="list-style-type: none"> • Shows that the blue pencil is longer than the red pencil by placing them side by side. • Compares the length of two tables by using a string to represent the length of one table and then laying the string against the second table. • Uses a paper strip to mark the distance from knee to foot and compares it to the distance from elbow to fingertip. 	Which is Tallest, Shortest, and Longest?
1.2 Order four or more objects by size. <ul style="list-style-type: none"> • Arranges four dolls from smallest to largest in pretend play with dolls. • In sandbox, lines up buckets by size, from the bucket that holds the most sand to one that holds the least. • On a playground, orders different kinds of balls (e.g., beach ball, basketball, soccer ball, tennis ball) by size. 	Which is Tallest, Shortest, and Longest?
1.3 Measure length using multiple duplicates of the same-size concrete units laid end to end. <ul style="list-style-type: none"> • Uses paper clips laid end to end to measure the length of different size blocks, with adult guidance. • Measures the length of a rug by laying same-size block units end to end and communicating, “The rug is ten blocks long,” with adult guidance. • Measures the length of a table using inch “worms,” with adult guidance. • Measures the distance from the reading area to the block area by using meter sticks, with adult guidance. 	I Know How to Measure

Geometry

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Children identify and use a variety of shapes in their everyday environment.	X
<p>1.1 Identify, describe, and construct a variety of different shapes, including variations of a circle, triangle, rectangle, square, and other shapes.</p> <ul style="list-style-type: none"> • While playing the “I Spy the Shape” game, communicates, “I see a circle—the clock.” Later, says, “I see a rectangle—the table.” • Correctly identifies shapes as the teacher calls them out in a game of shape bingo. • Uses play dough to construct rectangles of different sizes and orientations. • Sorts manipulatives of different sizes and orientations by shape and explains why a particular shape does or does not belong in a group. • Tears paper shape and communicates, “Look! A triangle” while making a collage. 	<p>I Know My Shapes, I Can Match Shapes</p>
<p>1.2 Combine different shapes to create a picture or design.</p> <ul style="list-style-type: none"> • Uses a variety of shapes to construct different parts of a building. • Uses flannel pieces of different shapes to create a design. • Creates a house, from different shapes, using a computer program. 	<p>I Can See Shapes Everywhere, I Can Make a Shape Picture</p>
2 – Children expand their understanding of positions in space.	X
<p>2.1 Identify positions of objects and people in space, including in/on/under, up/down, inside/outside, beside/between, and front/behind.</p> <ul style="list-style-type: none"> • During a treasure hunt, gives or follows directions to find something behind the doll bed or under the mat. • Follows directions when asked by the teacher to stand in front of or behind another child. • Communicates, “Where’s my book?” A friend says, “It’s over there on the table.” She finds the book. • Follows along with the directions during a game of “Simon Says” (e.g., “Put your hands in front of your legs”). 	<p>I Know My Place Words, I Can Move Shapes</p>

Mathematical Reasoning

California Early Learning Standard	TeachSmart® Learning System Activities
1 – Children expand the use of mathematical thinking to solve problems that arise in their everyday environment.	-
1.1 Identify and apply a variety of mathematical strategies to solve problems in their environment. <ul style="list-style-type: none"> • After placing plates and napkins around the snack table, recognizes that he needs one more napkin for the last place and asks the teacher for another napkin. • Following a discussion about the size of the room, works with other children to measure the length of the room using block units, lay blocks of the same size along the wall end to end, and count the number of blocks. • Predicts the number of small balls in a closed box and then communicates, “Let’s count.” • Has run out of long blocks to complete a road and solves the problem by using two smaller blocks to “fill in” for a longer block. • When in need of six cones to set up an obstacle course but having only four, communicates, “I need two more cones.” • Sorts the animal figures into two groups, wild animals for him and pets for his friend, when asked to share the animal figures with a friend.
