Shell Squad Adventures: Quick Start Guide

SETTING UP

1. **Ensure You Are Connected to Wi-Fi**
   - Visit your “Settings” icon and check to ensure that your Wi-Fi is on and that you are connected to a network.

2. **Install the Shell Squad Adventures App**
   - If you have not already, visit the iTunes store and find the Shell Squad Adventures app. Download and install the app on your iPad, then press OPEN.
   - The Shell Squad Adventures app will launch.

3. **Activate Your App**
   - Locate the device code in your activation email. If you don’t have an activation email, Call a Hatch representative at: 1-800-624-7968.
   - After you have entered your device code, you will see your Organization and School name reflected on the confirmation screen.
   - Enter your name as a signature for the License Agreement.
   - In the next menu, choose the top option, Setup Wizard, to begin setting up a class. If you are an administrator, you may wish to allow the teacher to complete this step.
Is This Your First Hatch Device?

• Press Create a Classroom Account.
  • Enter information to create your Classroom Account.
  • Remember to store your password in a safe place!
  • Enter information for your class, then press Assign Class to Device.
  • You will see the details of your class at the bottom of the screen.
  • The spaces at the top will clear so that you may add a second class if you wish.

YES

New to iStartSmart?
If you haven’t set up an account for your classroom, let’s get started!

- Create a Classroom Account

Already have an account?
Log in below to assign your class to a new device or to update your account info.

- Log In

Welcome back, Anna!
There is already at least one Class set up for this account. Select the classes below that you’d like to assign to this device and then press Assign to Device.

• Morning Class
• Afternoon Class

Review your information to ensure it’s correct, then edit or press That looks right!

NO

Log in using your email and password.

• Find your class name and press to add it, or use the link below to add a new class.

• Press Assign to Device.
Navigate to the Add Child Details Window

- After you have set up your Class(es), the games will launch.
- After a few moments, the Teacher Menu will appear, similar to the two shown to the right.
- Press Add Child, the top option on the first menu.
- You may see one more menu. If so, press Add Child or Photo.

Add Children!

- For this step, you may wish to have your Class Roster nearby.
- The Add Child Details window should now appear.
- You will need to add child details and take a photo of each child so that children can log in and play independently.
- Children can play only after you have added them and taken their photographs.
- Adding children here adds their information to your reports.
- After you have added children, you will see their faces appear on the login screen, and they will be able to play.
### SETTING UP

#### Set Up Guided Access

- To promote focus during play, consider using the iPad’s **Guided Access setting**, which prevents children from switching between apps during play.
- Press the **Home button** to switch back to the Home screen.
- Press the **Settings** icon, then navigate to **General**, then to **Accessibility**, then to **Guided Access**.
- Switch **Guided Access ON**.
- **Set a passcode** for ending Guided Access, and/or use touch recognition.
- When you open Shell Squad Adventures for children to play, **triple-press the Home button to initiate Guided Access**.
- Adjust your settings, then press **Start**.
- To end Guided Access, triple-press the Home button again, then enter the passcode or use touch recognition to verify.

### BEYOND SETUP

#### Technology Training Workshops

- To help you get started with iStartSmart®, Hatch has created a series of webinars for teachers and administrators. [View them here.](#)

#### See Progress Monitoring!

- To view child skill progress and assist children who are stuck, visit: [RMS.HatchEarlyLearning.com](https://RMS.HatchEarlyLearning.com)
- Use your Classroom Account email and password to log in.
- Learn more about the RMS by taking an online course.

#### Free Online Courses

- Need a bit more guidance? Find the **Learning Courses** button on the bottom-left side of the RMS screen. Hatch’s **Learning Management System (LMS)** offers courses with completion certificates, reference materials, and contact forms to build your savvy and answer your stickiest questions. Use this button or visit: [LMS.HatchEarlyLearning.com](https://LMS.HatchEarlyLearning.com)
